Minimum number of participants: 3 - € 3,200 , 4-5 participants: € 3,000

Tour Guide

More than half of the country is a desert or a wilderness and throughout this tour we will be exploring these unique different habitats, home to wolves, hyenas, foxes, ibexes, vultures and more.

You will be taken into the desert by foot and 4x4, led by experts that dedicated their lives to the study and protection of wildlife in their local desert environment:

You will be taken to the plains and hills of the Arava desert by one of Israel's best nature photographers. He has been filming in the desert for many years and seeing the desert through his eyes has a fascinating added value. We will spend one night in the heart of the Arava desert, at a small eco-friendly desert lodge also going on a night wildlife tour from there.

You will be taken into the Judaeen desert near the town of Arad, accompanied by a local Bedouin tracker, son of the desert. He will show you wolves' habitats by foot, exploring the desert during day-time and night-time.

At the high plains of the Northern Negev desert you will be guided by a local ecologist, expert in the research of predators. He will take you on day and night tours by 4x4 to cover this vast region and teach you about this special environment and his research.

This tour is an all-inclusive worries-free package:

Upon arrival you will meet your tour guide at the airport, or at your hotel. He is also passionate about the desert and will tell you about the tales and trails of the desert. He will also guide you throughout Israel: the county's fascinating history, diverse landscapes, unique society and the complex relationships among its different people, religions and communities.

You will be accommodated in a beautiful desert lodge, small boutique family hotel in the desert town of Arad, conveniently located next to these 3 different deserts and The Dead Sea. You will be dining in fine local restaurants and while in the desert, you will enjoy the fresh, simple, tasty meals of the desert explorers.

Looking forward to taking you on a tour of a lifetime. See you soon in our wondrous desert...
